2. Coiling

Coiling involves wrapping a continuous material around a core and sewing or stitching it in place.

- Create a base circle with a sturdy material.
- Add successive coils, stitching each layer to the previous one.
- Shape the basket by gradually increasing the diameter or shaping the sides.

3. Plaiting

This technique involves weaving strips of material in a diagonal pattern.

- Lay two strips parallel to each other.
- Bring a third strip over the first and under the second, alternating directions.

- Continue the pattern to form the sides of the basket.

Step-by-Step Guide to Making a Simple Basket
